## ABOUT ME

I am currently studying digital sciences at ENSEEIHT in Toulouse, I aspire to expand my skills, discover new things and to bring my contribution to the innovative projects of tomorrow. During my schooling, I hope to do several internships (possibly abroad) in order to enrich my culture and to develop my professional project.

## WORK EXPERIENCES

Apr. 2020 - Jun. 2020

### Trainee at IRIT

Data processing with python on the Geographic Information System software: QGIS

Sept. 2019 - Jan. 2020

### Refactoring of a mobile application for a psychologist

Application on post-traumatic stress. Development in JavaScript with the React Native framework.

Mar. 2018 - May. 2018

### Design and development of a computer game

Development in python of a game inspired by bomber-man for my high school diploma
